

The American Cancer Society reports that the key to breast cancer survival is early detection.

At St. Andrew, we didn't just ask why. We enlisted the greatest minds.

And then, We did something about it. SM

PROGRAM BENEFITS

WOMEN'S BREAST HEALTH PROGRAM®

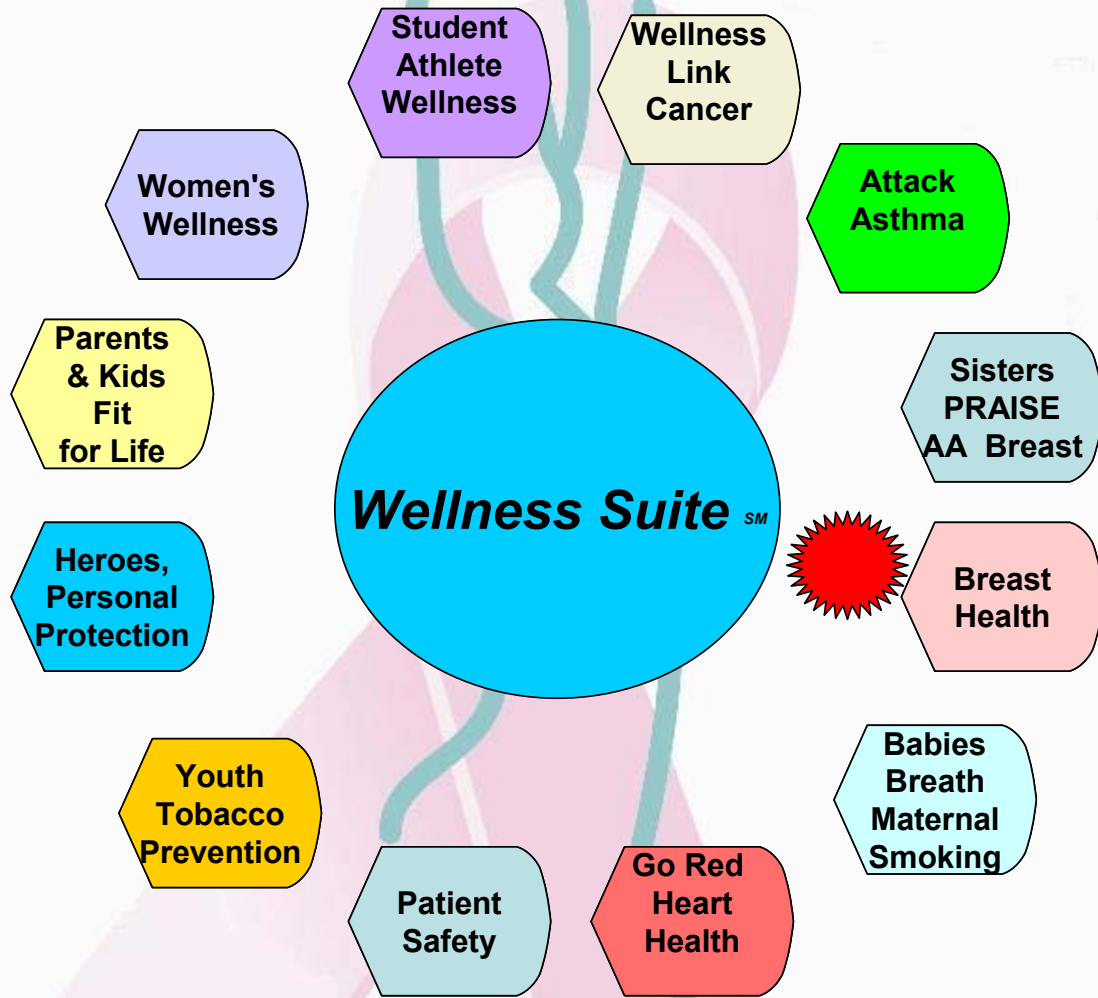

An interactive health education program empowering women to take control of their breast health.

Empower women through education with the life-skills to take control of their breast health and to make informed choices in matters of early detection, prevention and life-styles.

- **Credible** – Deploys information from the American Cancer Society, Susan G. Komen Foundation and CDC in a confidential, direct one on one setting using personalized health education kiosks and the Web. Can connect users directly to local resources for follow up and fulfillment.
- **Simple** – Clearly presents basic, life-saving information on mammograms, clinical breast examination, nutrition, responsible diet and exercise in an easy to understand format using highly engaging images, graphics and audio narrations.
- **Captivating** – Gives users the ability to see the first-person benefits of making proper prevention, early detection and life-style choices.
- **Effective** – Independently developed assessment tools show that the program is extensively used and also influences users to favorably alter their behavior.
- **Outcome Based** - Offers program administrators the ability to retrieve full usage statistics detailing topics viewed (frequency), self-assessment tools (optional) and personal information (optional) directly from the web meeting HIPAA standards.

Wellness Suite offers a community of health education programs to our clients. These programs support flexible deployment strategies by using reliable, self-standing, easy to use touchscreen kiosks and web portals.
